IEEE SMCS Governance - Derived RAG Testing Corpus

Purpose: a large, source-grounded derivative corpus for retrieval, chunking, embedding, re-ranking and RAG evaluation experiments.

Important: This is not an official IEEE governing document and must not be treated as a replacement for the source PDFs. It is a derived testing artifact based only on the uploaded IEEE/SMCS documents. For authoritative answers, retrieve and cite the original source documents.

Source family	Coverage
IEEE Constitution and Bylaws	Membership, governance hierarchy, organizational units, finance and committees
SMCS Constitution and Bylaws	Society governance, officers, elections, meetings, committees and amendments
SMCS Technical Committee Manual	TC operation, evaluation, creation, restructuring and dissolution
Draft SMCS Operational Manual V5	Operational procedures, conferences, membership programs, dues and awards

Canonical Governance Records

The following records deliberately repeat the same source-grounded knowledge in different retrieval-friendly forms. This increases corpus size for engineering tests but does not add new authoritative policy.

Record 001: SMCS Identity and Objectives

Source: SMCS Constitution, Article I
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The organization is the IEEE Systems, Man, and Cybernetics Society (SMCS), part of IEEE. Its objectives are scientific, literary, and educational. It promotes professional standing, cooperation, technical-information exchange, meetings, technical-paper discussion, journals, and committee activity within its Field of Interest.

Record 002: SMCS Field of Interest

Source: SMCS Constitution, Article II
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The SMCS Field of Interest includes integration of communication, control, cybernetics, stochastics, optimization, and system-structure theories; systems-engineering methods such as modelling, simulation, experimentation, human factors, design, testing and evaluation; and hardware/software applications to biological, ecological, socio-economic, social-service, computer-information and operational man-machine systems.

Record 003: SMCS Membership

Source: SMCS Constitution, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

IEEE members of any grade, including students, may join SMCS if interested in its Field of Interest and after application and payment of Society fees. Qualified non-IEEE participants may become Society Affiliates under the criteria in the Society Bylaws and applicable fees.

Record 004: SMCS Finances

Source: SMCS Constitution, Article IV
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS may collect annual assessments or fees in accordance with IEEE rules. It may charge registration fees for its meetings and may raise revenue through permitted means. Money held by or for SMCS legally belongs to IEEE and may be spent to promote SMCS objectives but not contrary to IEEE interests.

Record 005: Board of Governors Composition

Source: SMCS Constitution, Article V
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS is governed by a Board of Governors (BoG). All BoG members must be SMCS members. There are at most 27 voting members: two immediate Past Presidents, ten Administrative Officers, and fifteen Members-at-Large. Editors-in-Chief of fully sponsored SMCS Transactions serve without vote.

Record 006: Member-at-Large Term

Source: SMCS Constitution, Article V
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

A Member-at-Large of the BoG serves a three-year term, and at least five Members-at-Large are elected annually.

Record 007: SMCS Officers

Source: SMCS Constitution, Article V
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS officers include the President, President-Elect, Vice President for Organization and Planning, Vice President for Finance, three Technical Area Vice Presidents, Vice President for Publications, Vice President for Conferences and Meetings, and Vice President for Membership and Student Activities.

Record 008: Executive Committee

Source: SMCS Constitution, Article VI
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Executive Committee consists of the President, President-Elect, Vice Presidents, Secretary, and two immediate Past Presidents. The President chairs the ExCom. The Secretary and Treasurer are non-voting members of the ExCom.

Record 009: Secretary Responsibilities

Source: SMCS Constitution, Article VI
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Secretary sends notices, prepares agendas, records BoG minutes, reports ExCom actions, keeps Society records, and makes required reports to the BoG, IEEE TAB, and under IEEE Bylaws.

Record 010: Treasurer Responsibilities

Source: SMCS Constitution, Article VI
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Treasurer reports through the Vice President for Finance and is responsible for sound financial practices, assisting with the Society budget, working with IEEE on financial matters, and processing expense reports.

Record 011: Annual and Five-Year Planning

Source: SMCS Constitution, Article VI
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Each Vice President obtains subcommittee objectives in January and adds their own objectives. The Vice President for Organization and Planning prepares the Annual Plan and updates the Five-Year Plan annually for BoG approval.

Record 012: BoG Quorum

Source: SMCS Constitution, Article VII
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

A majority of voting BoG members constitutes a quorum. Proxy is not counted when determining quorum.

Record 013: BoG Voting

Source: SMCS Constitution, Article VII
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

When a quorum is present, a majority vote of voting members present is the act of the BoG unless otherwise provided. A person holding more than one position is limited to one vote. Proxy voting is not allowed.

Record 014: SMCS Meetings and Conferences

Source: SMCS Constitution, Article VIII
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS may hold meetings, conferences, symposia or conventions alone or with other IEEE units or technical organizations, subject to IEEE rules. SMCS shall sponsor or cosponsor at least one major technical conference each year.

Record 015: SMCS Publications

Source: SMCS Constitution, Article IX
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS periodically publishes its Transactions, Magazine, and eNewsletter as established by the BoG. Publication policies are governed by the Bylaws.

Record 016: Chapters and Committees

Source: SMCS Constitution, Article X
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Chapters may be formed under IEEE rules for purposes consistent with SMCS objectives. Committees are established by the BoG in special-interest areas within the SMCS Field of Interest.

Record 017: Constitution Amendment Initiation

Source: SMCS Constitution, Article XI
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

An amendment to the SMCS Constitution may be initiated by a petition signed by five percent of SMCS members or by a two-thirds vote of the entire voting membership of the BoG.

Record 018: Bylaw Amendment

Source: SMCS Constitution, Article XI
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS Bylaws may be adopted or changed by a two-thirds BoG vote if proposed changes are sent to each BoG member at least two weeks before action. They require IEEE approval and publication before becoming effective.

Record 019: Nominations Committee

Source: SMCS Bylaws, Article I
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Nominations Committee is chaired by the immediate Past President, subject to stated replacement arrangements. It includes the Chair and three Society members who, at selection, must have served on the BoG for at least one year.

Record 020: Candidate Eligibility

Source: SMCS Bylaws, Article I
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Vice President candidates must have been voting BoG members elected by the membership-at-large during the past five calendar years and served at least one full year by nomination. President and President-Elect candidates must have served at least one year as a Vice President.

Record 021: Petition Nomination

Source: SMCS Bylaws, Article I
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Additional Member-at-Large nominations require a written petition signed by at least two percent of SMCS members and filed with the Secretary at least 28 days before the election.

Record 022: Officer Terms

Source: SMCS Bylaws, Article I
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The President and Vice Presidents serve two-calendar-year terms; the President-Elect serves one calendar year. Continuous service as President is limited to two years and continuous service as a Vice President in one office is

limited to four years, subject to the stated partial-term rule.

Record 023: BoG Annual Meeting

Source: SMCS Bylaws, Article II
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The BoG meets at least once each year, usually around the Society Annual Meeting. The ExCom also meets at least once each year, usually about six months before the BoG meeting.

Record 024: BoG Meeting Notice

Source: SMCS Bylaws, Article II
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

No BoG meeting may transact business unless each member has been notified of the time and place at least 20 days before the scheduled meeting.

Record 025: Telecommunication Meetings

Source: SMCS Bylaws, Article II
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The BoG or a committee may meet and vote using telecommunications that allow all participants to hear each other at the same time; normal voting requirements apply.

Record 026: Action Without Meeting

Source: SMCS Bylaws, Article II
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The BoG or a committee may take action without a meeting, such as by email vote. An affirmative vote of a majority of all voting members is required and the result must be confirmed and filed with the minutes.

Record 027: Organization and Planning Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Vice President for Organization and Planning chairs the OPC. Responsibilities include annual Five-Year Plan updates, strategic and tactical planning, interpreting the Constitution and Bylaws when questions arise, and preparing modifications for BoG consideration.

Record 028: Technical Area Committees

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Systems Science and Engineering, Human Machine Systems, and Cybernetics committees provide leadership for technical activities such as conference special sessions, special publication issues, bibliographies, standards, technical meetings, workshops, and specialty committees.

Record 029: Publications Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Vice President for Publications chairs the Publications Committee, which formulates, guides and evaluates SMCS publication policy and programs and supports the Transactions, Magazine, eNewsletter, website and related publication planning.

Record 030: Conferences and Meetings Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Vice President for Conferences and Meetings chairs the CMC. The committee formulates, guides and evaluates SMCS conference and meeting policies and programs and coordinates Society technical meeting activities.

Record 031: Membership and Student Activities Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Vice President for Membership and Student Activities chairs the MSAC, which coordinates membership and student activities, promotes chapters, maintains links between chapters and the BoG, supports speakers, and encourages student participation.

Record 032: Finance Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Vice President for Finance chairs the Finance Committee and has overall responsibility for Society financial health, including budgets, financial monitoring, reports, investments and oversight of the Treasurer.

Record 033: Awards Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Senior Past President chairs the Awards Committee, which nominates candidates for IEEE Awards, nominates recipients for SMCS awards subject to BoG approval, and maintains awards activities and policies.

Record 034: Fellow Evaluation Committee

Source: SMCS Bylaws, Article III
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Fellow Evaluation Committee is chaired by the Senior Past President when eligible, or another appointed Fellow under the stated procedure. It evaluates IEEE Fellow candidates assigned to SMCS in accordance with IEEE evaluation procedures.

Record 035: Ad Hoc Committees

Source: SMCS Bylaws, Article IV
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The SMCS President may appoint ad hoc committees. New committees and ad hoc projects may also be sponsored by at least three SMCS members who provide the proposed Field of Interest, organizers and initial members, and a first-year activity outline.

Record 036: Technical Area VP Responsibilities

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Technical Area Vice Presidents are responsible for improving technical quality in their areas, chairing the corresponding area committees, encouraging and managing Technical Committees, collecting semi-annual reports, and handling recommendations or decisions on TC chairs, mergers, creation and dissolution.

Record 037: Area AVP Responsibilities

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

An Area Associate Vice President supports the corresponding Area VP, supports TCs, collects requests and opinions, analyses technical trends, assists planning for new, combined or discontinued TCs, promotes TC activities, and helps enforce policies and procedures.

Record 038: Technical Committee Activity

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Technical Committees collectively define the scope of SMCS technical activities. Each TC must propose at least one special session at the annual SMC conference and should contribute through conferences, workshops, special issues, tutorial papers, newsletters and industry collaboration.

Record 039: TC Chair Requirements

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

All TC Chairs and Co-Chairs must be SMCS members. They must contribute to SMCS-sponsored conferences or workshops, recruit new members through TC activities, and report TC activities bi-annually to the corresponding Area VP.

Record 040: TC Performance Evaluation

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Yearly TC performance evaluation considers bi-annual reports and composition statistics, activities and publications, conference and event support, member acquisition, an up-to-date webpage, and future plans.

Record 041: Creating a New TC

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

A request for a new TC is submitted to the corresponding Area VP with the TC name, Chair and member names, objectives and activity plan. The Area Committee checks the plan and overlap with existing TCs. After Area VP approval, activity may begin and the decision is reported and announced.

Record 042: Dissolving a TC

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

A TC may be discontinued if inactive for at least one year with no credible revival plan, based largely on bi-annual reports. Alternatively, its Chair with support of at least two TC members may request discontinuation. The final decision rests with the corresponding Area Committee.

Record 043: Major TC Changes

Source: SMCS Technical Committee Manual
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Major TC changes include changing TC Chairs or significantly changing technical content. The TC Chair proposes the change to the Area VP; after approval, the change is reported to the BoG, TCs are informed, and the change is announced.

Record 044: SMCS Annual Dues

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Annual Society dues for Members are set each year during the budget cycle. A change in dues requires approval by two-thirds of all voting members of the Board of Governors. Affiliate dues equal Society Member dues plus the IEEE-set Affiliate surcharge.

Record 045: Member Discipline

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Society members are subject to IEEE and Society rules for material violations of governing documents, policies, the operational manual or the IEEE Code of Ethics, or conduct seriously prejudicial to IEEE. Discipline may include expulsion, suspension or censure by IEEE.

Record 046: Distinguished Lecturer Program

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The Distinguished Lecturer Program is administered under the Vice President for Membership and Student Activities. Candidates submit specified biographical and lecture information, are evaluated by the committee, and normally receive two-year appointments with a possible two-year extension.

Record 047: Flagship Conference Rotation

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

SMCS flagship conferences follow a rotating global schedule: Americas, then Asia/Oceania, then Europe/Africa, repeating on a three-year cycle. Hosting bids and proposals operate on a 24-36 month cycle.

Record 048: Financially Sponsored Conferences

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

For financially sponsored or co-sponsored conferences, SMCS assumes full or shared financial responsibility. Revenue and expense sharing is defined in a Memorandum of Understanding, and conferences must comply with IEEE financial reporting and conference standards.

Record 049: Technically Co-Sponsored Conferences

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Technical co-sponsorship means direct and substantial SMCS involvement in the technical program without financial responsibility. SMCS may promote the event and encourage submissions and attendance.

Record 050: Conference Proposal Review

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

For flagship conferences, at least two bids should be obtained through a competitive process. The Conferences and Meetings Committee reviews proposals, the two strongest are recommended to the BoG, and the strongest proposal is approved following evaluation.

Record 051: Conference Budget Planning

Source: Draft SMCS Operational Manual V5
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

A detailed conference budget should be developed early, covering venue, catering, marketing, travel, speakers and miscellaneous costs. The draft manual states a target surplus of 20 percent over projected expenses and calls for a

contingency fund and approval by SMCS and IEEE.

Record 052: IEEE Governance Hierarchy

Source: IEEE Constitution and Bylaws, I-300
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

IEEE governance documents have a hierarchy. The Constitution contains fundamental objectives and organization; Bylaws implement constitutional provisions; Policies contain more detailed policies, objectives and procedures; organizational-unit manuals, policy statements and bylaws must conform to higher-level IEEE governing documents.

Record 053: IEEE Organizational Units

Source: IEEE Constitution and Bylaws, I-107
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

An IEEE organizational unit is a subset of IEEE membership formed for educational, geographic, professional, technical or other appropriate activities. Each organizational unit is an integral part of IEEE rather than a separate organization.

Record 054: IEEE Life Member

Source: IEEE Constitution and Bylaws, I-102
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Life Member designation applies when a member has reached age 65 and the sum of age and years of IEEE membership equals or exceeds 100. The designation becomes effective on 1 January of the following year.

Record 055: IEEE Senior Member

Source: IEEE Constitution and Bylaws, I-104
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

Senior Member is the highest grade for which application may be made. A candidate requires professional maturity, at least ten years of professional practice, and significant performance over at least five of those years under the stated criteria.

Record 056: IEEE Member Obligations

Source: IEEE Constitution and Bylaws, I-104
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

IEEE membership carries obligations to abide by the IEEE Constitution, Code of Ethics, Bylaws and Policies, support IEEE principles and activities, and meet applicable monetary obligations.

Record 057: IEEE Finance Committee

Source: IEEE Constitution and Bylaws, I-305
Record type: canonical governance summary
Authority note: derived from uploaded source; verify against original for authoritative use.

The IEEE Finance Committee reports to the Board of Directors and is responsible for financial strategy, financial issues, development of capital and operating budgets, and statements of allocated and unallocated reserves.

Retrieval-Oriented Expanded Records

The following records deliberately repeat the same source-grounded knowledge in different retrieval-friendly forms. This increases corpus size for engineering tests but does not add new authoritative policy.

Expanded Record 001: SMCS Identity and Objectives

Source: SMCS Constitution, Article I
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs identity and objectives

This record concerns **SMCS Identity and Objectives**. The organization is the IEEE Systems, Man, and Cybernetics Society (SMCS), part of IEEE. Its objectives are scientific, literary, and educational. It promotes professional standing, cooperation, technical-information exchange, meetings, technical-paper discussion, journals, and committee activity within its Field of Interest. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 002: SMCS Field of Interest

Source: SMCS Constitution, Article II
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs field of interest

This record concerns **SMCS Field of Interest**. The SMCS Field of Interest includes integration of communication, control, cybernetics, stochastics, optimization, and system-structure theories; systems-engineering methods such as modelling, simulation, experimentation, human factors, design, testing and evaluation; and hardware/software applications to biological, ecological, socio-economic, social-service, computer-information and operational man-machine systems. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 003: SMCS Membership

Source: SMCS Constitution, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs membership

This record concerns **SMCS Membership**. IEEE members of any grade, including students, may join SMCS if interested in its Field of Interest and after application and payment of Society fees. Qualified non-IEEE participants may become Society Affiliates under the criteria in the Society Bylaws and applicable fees. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 004: SMCS Finances

Source: SMCS Constitution, Article IV
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs finances

This record concerns **SMCS Finances**. SMCS may collect annual assessments or fees in accordance with IEEE rules. It may charge registration fees for its meetings and may raise revenue through permitted means. Money held by or for SMCS legally belongs to IEEE and may be spent to promote SMCS objectives but not contrary to IEEE interests. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 005: Board of Governors Composition

Source: SMCS Constitution, Article V
Retrieval tags: SMCS; IEEE; governance; policy; procedure; board of governors composition

This record concerns **Board of Governors Composition**. SMCS is governed by a Board of Governors (BoG). All BoG members must be SMCS members. There are at most 27 voting members: two immediate Past Presidents, ten Administrative Officers, and fifteen Members-at-Large. Editors-in-Chief of fully sponsored SMCS Transactions serve without vote. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 006: Member-at-Large Term

Source: SMCS Constitution, Article V
Retrieval tags: SMCS; IEEE; governance; policy; procedure; member-at-large term

This record concerns **Member-at-Large Term**. A Member-at-Large of the BoG serves a three-year term, and at least five Members-at-Large are elected annually. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 007: SMCS Officers

Source: SMCS Constitution, Article V
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs officers

This record concerns **SMCS Officers**. SMCS officers include the President, President-Elect, Vice President for Organization and Planning, Vice President for Finance, three Technical Area Vice Presidents, Vice President for Publications, Vice President for Conferences and Meetings, and Vice President for Membership and Student Activities. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 008: Executive Committee

Source: SMCS Constitution, Article VI
Retrieval tags: SMCS; IEEE; governance; policy; procedure; executive committee

This record concerns **Executive Committee**. The Executive Committee consists of the President, President-Elect, Vice Presidents, Secretary, and two immediate Past Presidents. The President chairs the ExCom. The Secretary and Treasurer are non-voting members of the ExCom. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 009: Secretary Responsibilities

Source: SMCS Constitution, Article VI
Retrieval tags: SMCS; IEEE; governance; policy; procedure; secretary responsibilities

This record concerns **Secretary Responsibilities**. The Secretary sends notices, prepares agendas, records BoG minutes, reports ExCom actions, keeps Society records, and makes required reports to the BoG, IEEE TAB, and under IEEE Bylaws. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 010: Treasurer Responsibilities

Source: SMCS Constitution, Article VI
Retrieval tags: SMCS; IEEE; governance; policy; procedure; treasurer responsibilities

This record concerns **Treasurer Responsibilities**. The Treasurer reports through the Vice President for Finance and is responsible for sound financial practices, assisting with the Society budget, working with IEEE on financial matters, and processing expense reports. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 011: Annual and Five-Year Planning

Source: SMCS Constitution, Article VI
Retrieval tags: SMCS; IEEE; governance; policy; procedure; annual and five-year planning

This record concerns **Annual and Five-Year Planning**. Each Vice President obtains subcommittee objectives in January and adds their own objectives. The Vice President for Organization and Planning prepares the Annual Plan and updates the Five-Year Plan annually for BoG approval. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 012: BoG Quorum

Source: SMCS Constitution, Article VII
Retrieval tags: SMCS; IEEE; governance; policy; procedure; bog quorum

This record concerns **BoG Quorum**. A majority of voting BoG members constitutes a quorum. Proxy is not counted when determining quorum. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 013: BoG Voting

Source: SMCS Constitution, Article VII
Retrieval tags: SMCS; IEEE; governance; policy; procedure; bog voting

This record concerns **BoG Voting**. When a quorum is present, a majority vote of voting members present is the act of the BoG unless otherwise provided. A person holding more than one position is limited to one vote. Proxy voting is not allowed. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 014: SMCS Meetings and Conferences

Source: SMCS Constitution, Article VIII
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs meetings and conferences

This record concerns **SMCS Meetings and Conferences**. SMCS may hold meetings, conferences, symposia or conventions alone or with other IEEE units or technical organizations, subject to IEEE rules. SMCS shall sponsor or cosponsor at least one major technical conference each year. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 015: SMCS Publications

Source: SMCS Constitution, Article IX
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs publications

This record concerns **SMCS Publications**. SMCS periodically publishes its Transactions, Magazine, and eNewsletter as established by the BoG. Publication policies are governed by the Bylaws. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 016: Chapters and Committees

Source: SMCS Constitution, Article X
Retrieval tags: SMCS; IEEE; governance; policy; procedure; chapters and committees

This record concerns **Chapters and Committees**. Chapters may be formed under IEEE rules for purposes consistent with SMCS objectives. Committees are established by the BoG in special-interest areas within the SMCS Field of Interest. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 017: Constitution Amendment Initiation

Source: SMCS Constitution, Article XI
Retrieval tags: SMCS; IEEE; governance; policy; procedure; constitution amendment initiation

This record concerns **Constitution Amendment Initiation**. An amendment to the SMCS Constitution may be initiated by a petition signed by five percent of SMCS members or by a two-thirds vote of the entire voting membership of the BoG. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 018: Bylaw Amendment

Source: SMCS Constitution, Article XI
Retrieval tags: SMCS; IEEE; governance; policy; procedure; bylaw amendment

This record concerns **Bylaw Amendment**. SMCS Bylaws may be adopted or changed by a two-thirds BoG vote if proposed changes are sent to each BoG member at least two weeks before action. They require IEEE approval and publication before becoming effective. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 019: Nominations Committee

Source: SMCS Bylaws, Article I
Retrieval tags: SMCS; IEEE; governance; policy; procedure; nominations committee

This record concerns **Nominations Committee**. The Nominations Committee is chaired by the immediate Past President, subject to stated replacement arrangements. It includes the Chair and three Society members who, at selection, must have served on the BoG for at least one year. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 020: Candidate Eligibility

Source: SMCS Bylaws, Article I
Retrieval tags: SMCS; IEEE; governance; policy; procedure; candidate eligibility

This record concerns **Candidate Eligibility**. Vice President candidates must have been voting BoG members elected by the membership-at-large during the past five calendar years and served at least one full year by nomination. President and President-Elect candidates must have served at least one year as a Vice President. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 021: Petition Nomination

Source: SMCS Bylaws, Article I
Retrieval tags: SMCS; IEEE; governance; policy; procedure; petition nomination

This record concerns **Petition Nomination**. Additional Member-at-Large nominations require a written petition signed by at least two percent of SMCS members and filed with the Secretary at least 28 days before the election. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 022: Officer Terms

Source: SMCS Bylaws, Article I
Retrieval tags: SMCS; IEEE; governance; policy; procedure; officer terms

This record concerns **Officer Terms**. The President and Vice Presidents serve two-calendar-year terms; the President-Elect serves one calendar year. Continuous service as President is limited to two years and continuous service as a Vice President in one office is limited to four years, subject to the stated partial-term rule. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 023: BoG Annual Meeting

Source: SMCS Bylaws, Article II
Retrieval tags: SMCS; IEEE; governance; policy; procedure; bog annual meeting

This record concerns **BoG Annual Meeting**. The BoG meets at least once each year, usually around the Society Annual Meeting. The ExCom also meets at least once each year, usually about six months before the BoG meeting. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 024: BoG Meeting Notice

Source: SMCS Bylaws, Article II
Retrieval tags: SMCS; IEEE; governance; policy; procedure; bog meeting notice

This record concerns **BoG Meeting Notice**. No BoG meeting may transact business unless each member has been notified of the time and place at least 20 days before the scheduled meeting. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 025: Telecommunication Meetings

Source: SMCS Bylaws, Article II
Retrieval tags: SMCS; IEEE; governance; policy; procedure; telecommunication meetings

This record concerns **Telecommunication Meetings**. The BoG or a committee may meet and vote using telecommunications that allow all participants to hear each other at the same time; normal voting requirements apply. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 026: Action Without Meeting

Source: SMCS Bylaws, Article II
Retrieval tags: SMCS; IEEE; governance; policy; procedure; action without meeting

This record concerns **Action Without Meeting**. The BoG or a committee may take action without a meeting, such as by email vote. An affirmative vote of a majority of all voting members is required and the result must be confirmed and filed with the minutes. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 027: Organization and Planning Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; organization and planning committee

This record concerns **Organization and Planning Committee**. The Vice President for Organization and Planning chairs the OPC. Responsibilities include annual Five-Year Plan updates, strategic and tactical planning, interpreting the Constitution and Bylaws when questions arise, and preparing modifications for BoG consideration. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 028: Technical Area Committees

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; technical area committees

This record concerns **Technical Area Committees**. The Systems Science and Engineering, Human Machine Systems, and Cybernetics committees provide leadership for technical activities such as conference special sessions, special publication issues, bibliographies, standards, technical meetings, workshops, and specialty committees. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 029: Publications Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; publications committee

This record concerns **Publications Committee**. The Vice President for Publications chairs the Publications Committee, which formulates, guides and evaluates SMCS publication policy and programs and supports the Transactions, Magazine, eNewsletter, website and related publication planning. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 030: Conferences and Meetings Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; conferences and meetings committee

This record concerns **Conferences and Meetings Committee**. The Vice President for Conferences and Meetings chairs the CMC. The committee formulates, guides and evaluates SMCS conference and meeting policies and programs and coordinates Society technical meeting activities. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 031: Membership and Student Activities Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; membership and student activities committee

This record concerns **Membership and Student Activities Committee**. The Vice President for Membership and Student Activities chairs the MSAC, which coordinates membership and student activities, promotes chapters, maintains links between chapters and the BoG, supports speakers, and encourages student participation. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 032: Finance Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; finance committee

This record concerns **Finance Committee**. The Vice President for Finance chairs the Finance Committee and has overall responsibility for Society financial health, including budgets, financial monitoring, reports, investments and oversight of the Treasurer. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 033: Awards Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; awards committee

This record concerns **Awards Committee**. The Senior Past President chairs the Awards Committee, which nominates candidates for IEEE Awards, nominates recipients for SMCS awards subject to BoG approval, and maintains awards activities and policies. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 034: Fellow Evaluation Committee

Source: SMCS Bylaws, Article III
Retrieval tags: SMCS; IEEE; governance; policy; procedure; fellow evaluation committee

This record concerns **Fellow Evaluation Committee**. The Fellow Evaluation Committee is chaired by the Senior Past President when eligible, or another appointed Fellow under the stated procedure. It evaluates IEEE Fellow candidates assigned to SMCS in accordance with IEEE evaluation procedures. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 035: Ad Hoc Committees

Source: SMCS Bylaws, Article IV
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ad hoc committees

This record concerns **Ad Hoc Committees**. The SMCS President may appoint ad hoc committees. New committees and ad hoc projects may also be sponsored by at least three SMCS members who provide the proposed Field of Interest, organizers and initial members, and a first-year activity outline. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 036: Technical Area VP Responsibilities

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; technical area vp responsibilities

This record concerns **Technical Area VP Responsibilities**. The Technical Area Vice Presidents are responsible for improving technical quality in their areas, chairing the corresponding area committees, encouraging and managing Technical Committees, collecting semi-annual reports, and handling recommendations or decisions on TC chairs, mergers, creation and dissolution. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 037: Area AVP Responsibilities

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; area avp responsibilities

This record concerns **Area AVP Responsibilities**. An Area Associate Vice President supports the corresponding Area VP, supports TCs, collects requests and opinions, analyses technical trends, assists planning for new, combined or discontinued TCs, promotes TC activities, and helps enforce policies and procedures. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 038: Technical Committee Activity

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; technical committee activity

This record concerns **Technical Committee Activity**. Technical Committees collectively define the scope of SMCS technical activities. Each TC must propose at least one special session at the annual SMC conference and should contribute through conferences, workshops, special issues, tutorial papers, newsletters and industry collaboration. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 039: TC Chair Requirements

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; tc chair requirements

This record concerns **TC Chair Requirements**. All TC Chairs and Co-Chairs must be SMCS members. They must contribute to SMCS-sponsored conferences or workshops, recruit new members through TC activities, and report TC activities bi-annually to the corresponding Area VP. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 040: TC Performance Evaluation

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; tc performance evaluation

This record concerns **TC Performance Evaluation**. Yearly TC performance evaluation considers bi-annual reports and composition statistics, activities and publications, conference and event support, member acquisition, an up-to-date webpage, and future plans. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 041: Creating a New TC

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; creating a new tc

This record concerns **Creating a New TC**. A request for a new TC is submitted to the corresponding Area VP with the TC name, Chair and member names, objectives and activity plan. The Area Committee checks the plan and overlap with existing TCs. After Area VP approval, activity may begin and the decision is reported and announced. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural

requirements.

Expanded Record 042: Dissolving a TC

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; dissolving a tc

This record concerns **Dissolving a TC**. A TC may be discontinued if inactive for at least one year with no credible revival plan, based largely on bi-annual reports. Alternatively, its Chair with support of at least two TC members may request discontinuation. The final decision rests with the corresponding Area Committee. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 043: Major TC Changes

Source: SMCS Technical Committee Manual
Retrieval tags: SMCS; IEEE; governance; policy; procedure; major tc changes

This record concerns **Major TC Changes**. Major TC changes include changing TC Chairs or significantly changing technical content. The TC Chair proposes the change to the Area VP; after approval, the change is reported to the BoG, TCs are informed, and the change is announced. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 044: SMCS Annual Dues

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; smcs annual dues

This record concerns **SMCS Annual Dues**. Annual Society dues for Members are set each year during the budget cycle. A change in dues requires approval by two-thirds of all voting members of the Board of Governors. Affiliate dues equal Society Member dues plus the IEEE-set Affiliate surcharge. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 045: Member Discipline

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; member discipline

This record concerns **Member Discipline**. Society members are subject to IEEE and Society rules for material violations of governing documents, policies, the operational manual or the IEEE Code of Ethics, or conduct seriously prejudicial to IEEE. Discipline may include expulsion, suspension or censure by IEEE. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 046: Distinguished Lecturer Program

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; distinguished lecturer program

This record concerns **Distinguished Lecturer Program**. The Distinguished Lecturer Program is administered under the Vice President for Membership and Student Activities. Candidates submit specified biographical and lecture information, are evaluated by the committee, and normally receive two-year appointments with a possible two-year extension. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 047: Flagship Conference Rotation

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; flagship conference rotation

This record concerns **Flagship Conference Rotation**. SMCS flagship conferences follow a rotating global schedule: Americas, then Asia/Oceania, then Europe/Africa, repeating on a three-year cycle. Hosting bids and proposals operate on a 24-36 month cycle. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees,

conferences, finance, or related procedural requirements.

Expanded Record 048: Financially Sponsored Conferences

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; financially sponsored conferences

This record concerns **Financially Sponsored Conferences**. For financially sponsored or co-sponsored conferences, SMCS assumes full or shared financial responsibility. Revenue and expense sharing is defined in a Memorandum of Understanding, and conferences must comply with IEEE financial reporting and conference standards. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 049: Technically Co-Sponsored Conferences

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; technically co-sponsored conferences

This record concerns **Technically Co-Sponsored Conferences**. Technical co-sponsorship means direct and substantial SMCS involvement in the technical program without financial responsibility. SMCS may promote the event and encourage submissions and attendance. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 050: Conference Proposal Review

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; conference proposal review

This record concerns **Conference Proposal Review**. For flagship conferences, at least two bids should be obtained through a competitive process. The Conferences and Meetings Committee reviews proposals, the two strongest are recommended to the BoG, and the strongest proposal is approved following evaluation. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 051: Conference Budget Planning

Source: Draft SMCS Operational Manual V5
Retrieval tags: SMCS; IEEE; governance; policy; procedure; conference budget planning

This record concerns **Conference Budget Planning**. A detailed conference budget should be developed early, covering venue, catering, marketing, travel, speakers and miscellaneous costs. The draft manual states a target surplus of 20 percent over projected expenses and calls for a contingency fund and approval by SMCS and IEEE. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 052: IEEE Governance Hierarchy

Source: IEEE Constitution and Bylaws, I-300
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ieee governance hierarchy

This record concerns **IEEE Governance Hierarchy**. IEEE governance documents have a hierarchy. The Constitution contains fundamental objectives and organization; Bylaws implement constitutional provisions; Policies contain more detailed policies, objectives and procedures; organizational-unit manuals, policy statements and bylaws must conform to higher-level IEEE governing documents. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 053: IEEE Organizational Units

Source: IEEE Constitution and Bylaws, I-107
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ieee organizational units

This record concerns **IEEE Organizational Units**. An IEEE organizational unit is a subset of IEEE membership formed for educational, geographic, professional, technical or other appropriate activities. Each organizational unit is

an integral part of IEEE rather than a separate organization. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 054: IEEE Life Member

Source: IEEE Constitution and Bylaws, I-102
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ieee life member

This record concerns **IEEE Life Member**. Life Member designation applies when a member has reached age 65 and the sum of age and years of IEEE membership equals or exceeds 100. The designation becomes effective on 1 January of the following year. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 055: IEEE Senior Member

Source: IEEE Constitution and Bylaws, I-104
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ieee senior member

This record concerns **IEEE Senior Member**. Senior Member is the highest grade for which application may be made. A candidate requires professional maturity, at least ten years of professional practice, and significant performance over at least five of those years under the stated criteria. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 056: IEEE Member Obligations

Source: IEEE Constitution and Bylaws, I-104
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ieee member obligations

This record concerns **IEEE Member Obligations**. IEEE membership carries obligations to abide by the IEEE Constitution, Code of Ethics, Bylaws and Policies, support IEEE principles and activities, and meet applicable monetary obligations. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Expanded Record 057: IEEE Finance Committee

Source: IEEE Constitution and Bylaws, I-305
Retrieval tags: SMCS; IEEE; governance; policy; procedure; ieee finance committee

This record concerns **IEEE Finance Committee**. The IEEE Finance Committee reports to the Board of Directors and is responsible for financial strategy, financial issues, development of capital and operating budgets, and statements of allocated and unallocated reserves. The record is intended to support semantic retrieval when a user asks about responsibilities, eligibility, approval, voting, membership, governance, committees, meetings, technical committees, conferences, finance, or related procedural requirements.

Question-Context Retrieval Records

The following records deliberately repeat the same source-grounded knowledge in different retrieval-friendly forms. This increases corpus size for engineering tests but does not add new authoritative policy.

Context Record 001: SMCS Identity and Objectives

Source: SMCS Constitution, Article I
Suggested query: What are the rules or requirements concerning smcs identity and objectives?

Grounding context: The organization is the IEEE Systems, Man, and Cybernetics Society (SMCS), part of IEEE. Its objectives are scientific, literary, and educational. It promotes professional standing, cooperation, technical-information exchange, meetings, technical-paper discussion, journals, and committee activity within its Field of Interest.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 002: SMCS Field of Interest

Source: SMCS Constitution, Article II
Suggested query: What are the rules or requirements concerning smcs field of interest?

Grounding context: The SMCS Field of Interest includes integration of communication, control, cybernetics, stochastics, optimization, and system-structure theories; systems-engineering methods such as modelling, simulation, experimentation, human factors, design, testing and evaluation; and hardware/software applications to biological, ecological, socio-economic, social-service, computer-information and operational man-machine systems.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 003: SMCS Membership

Source: SMCS Constitution, Article III
Suggested query: What are the rules or requirements concerning smcs membership?

Grounding context: IEEE members of any grade, including students, may join SMCS if interested in its Field of Interest and after application and payment of Society fees. Qualified non-IEEE participants may become Society Affiliates under the criteria in the Society Bylaws and applicable fees.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 004: SMCS Finances

Source: SMCS Constitution, Article IV
Suggested query: What are the rules or requirements concerning smcs finances?

Grounding context: SMCS may collect annual assessments or fees in accordance with IEEE rules. It may charge registration fees for its meetings and may raise revenue through permitted means. Money held by or for SMCS legally belongs to IEEE and may be spent to promote SMCS objectives but not contrary to IEEE interests.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 005: Board of Governors Composition

Source: SMCS Constitution, Article V
Suggested query: What are the rules or requirements concerning board of governors composition?

Grounding context: SMCS is governed by a Board of Governors (BoG). All BoG members must be SMCS members. There are at most 27 voting members: two immediate Past Presidents, ten Administrative Officers, and fifteen Members-at-Large. Editors-in-Chief of fully sponsored SMCS Transactions serve without vote.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 006: Member-at-Large Term

Source: SMCS Constitution, Article V
Suggested query: What are the rules or requirements concerning member-at-large term?

Grounding context: A Member-at-Large of the BoG serves a three-year term, and at least five Members-at-Large are elected annually.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 007: SMCS Officers

Source: SMCS Constitution, Article V
Suggested query: What are the rules or requirements concerning smcs officers?

Grounding context: SMCS officers include the President, President-Elect, Vice President for Organization and Planning, Vice President for Finance, three Technical Area Vice Presidents, Vice President for Publications, Vice President for Conferences and Meetings, and Vice President for Membership and Student Activities.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 008: Executive Committee

Source: SMCS Constitution, Article VI
Suggested query: What are the rules or requirements concerning executive committee?

Grounding context: The Executive Committee consists of the President, President-Elect, Vice Presidents, Secretary, and two immediate Past Presidents. The President chairs the ExCom. The Secretary and Treasurer are non-voting members of the ExCom.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 009: Secretary Responsibilities

Source: SMCS Constitution, Article VI
Suggested query: What are the rules or requirements concerning secretary responsibilities?

Grounding context: The Secretary sends notices, prepares agendas, records BoG minutes, reports ExCom actions, keeps Society records, and makes required reports to the BoG, IEEE TAB, and under IEEE Bylaws.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 010: Treasurer Responsibilities

Source: SMCS Constitution, Article VI
Suggested query: What are the rules or requirements concerning treasurer responsibilities?

Grounding context: The Treasurer reports through the Vice President for Finance and is responsible for sound financial practices, assisting with the Society budget, working with IEEE on financial matters, and processing expense reports.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 011: Annual and Five-Year Planning

Source: SMCS Constitution, Article VI
Suggested query: What are the rules or requirements concerning annual and five-year planning?

Grounding context: Each Vice President obtains subcommittee objectives in January and adds their own objectives. The Vice President for Organization and Planning prepares the Annual Plan and updates the Five-Year Plan annually for BoG approval.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 012: BoG Quorum

Source: SMCS Constitution, Article VII
Suggested query: What are the rules or requirements concerning bog quorum?

Grounding context: A majority of voting BoG members constitutes a quorum. Proxy is not counted when determining quorum.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 013: BoG Voting

Source: SMCS Constitution, Article VII
Suggested query: What are the rules or requirements concerning bog voting?

Grounding context: When a quorum is present, a majority vote of voting members present is the act of the BoG unless otherwise provided. A person holding more than one position is limited to one vote. Proxy voting is not allowed.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 014: SMCS Meetings and Conferences

Source: SMCS Constitution, Article VIII
Suggested query: What are the rules or requirements concerning smcs meetings and conferences?

Grounding context: SMCS may hold meetings, conferences, symposia or conventions alone or with other IEEE units or technical organizations, subject to IEEE rules. SMCS shall sponsor or cosponsor at least one major technical conference each year.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 015: SMCS Publications

Source: SMCS Constitution, Article IX
Suggested query: What are the rules or requirements concerning smcs publications?

Grounding context: SMCS periodically publishes its Transactions, Magazine, and eNewsletter as established by the BoG. Publication policies are governed by the Bylaws.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 016: Chapters and Committees

Source: SMCS Constitution, Article X
Suggested query: What are the rules or requirements concerning chapters and committees?

Grounding context: Chapters may be formed under IEEE rules for purposes consistent with SMCS objectives. Committees are established by the BoG in special-interest areas within the SMCS Field of Interest.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 017: Constitution Amendment Initiation

Source: SMCS Constitution, Article XI
Suggested query: What are the rules or requirements concerning constitution amendment initiation?

Grounding context: An amendment to the SMCS Constitution may be initiated by a petition signed by five percent of SMCS members or by a two-thirds vote of the entire voting membership of the BoG.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 018: Bylaw Amendment

Source: SMCS Constitution, Article XI
Suggested query: What are the rules or requirements concerning bylaw amendment?

Grounding context: SMCS Bylaws may be adopted or changed by a two-thirds BoG vote if proposed changes are sent to each BoG member at least two weeks before action. They require IEEE approval and publication before becoming effective.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 019: Nominations Committee

Source: SMCS Bylaws, Article I
Suggested query: What are the rules or requirements concerning nominations committee?

Grounding context: The Nominations Committee is chaired by the immediate Past President, subject to stated replacement arrangements. It includes the Chair and three Society members who, at selection, must have served on the BoG for at least one year.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 020: Candidate Eligibility

Source: SMCS Bylaws, Article I
Suggested query: What are the rules or requirements concerning candidate eligibility?

Grounding context: Vice President candidates must have been voting BoG members elected by the membership-at-large during the past five calendar years and served at least one full year by nomination. President and President-Elect candidates must have served at least one year as a Vice President.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 021: Petition Nomination

Source: SMCS Bylaws, Article I
Suggested query: What are the rules or requirements concerning petition nomination?

Grounding context: Additional Member-at-Large nominations require a written petition signed by at least two percent of SMCS members and filed with the Secretary at least 28 days before the election.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 022: Officer Terms

Source: SMCS Bylaws, Article I
Suggested query: What are the rules or requirements concerning officer terms?

Grounding context: The President and Vice Presidents serve two-calendar-year terms; the President-Elect serves one calendar year. Continuous service as President is limited to two years and continuous service as a Vice President in one office is limited to four years, subject to the stated partial-term rule.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 023: BoG Annual Meeting

Source: SMCS Bylaws, Article II
Suggested query: What are the rules or requirements concerning bog annual meeting?

Grounding context: The BoG meets at least once each year, usually around the Society Annual Meeting. The ExCom also meets at least once each year, usually about six months before the BoG meeting.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 024: BoG Meeting Notice

Source: SMCS Bylaws, Article II
Suggested query: What are the rules or requirements concerning bog meeting notice?

Grounding context: No BoG meeting may transact business unless each member has been notified of the time and place at least 20 days before the scheduled meeting.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 025: Telecommunication Meetings

Source: SMCS Bylaws, Article II
Suggested query: What are the rules or requirements concerning telecommunication meetings?

Grounding context: The BoG or a committee may meet and vote using telecommunications that allow all participants to hear each other at the same time; normal voting requirements apply.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 026: Action Without Meeting

Source: SMCS Bylaws, Article II
Suggested query: What are the rules or requirements concerning action without meeting?

Grounding context: The BoG or a committee may take action without a meeting, such as by email vote. An affirmative vote of a majority of all voting members is required and the result must be confirmed and filed with the minutes.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 027: Organization and Planning Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning organization and planning committee?

Grounding context: The Vice President for Organization and Planning chairs the OPC. Responsibilities include annual Five-Year Plan updates, strategic and tactical planning, interpreting the Constitution and Bylaws when questions arise, and preparing modifications for BoG consideration.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 028: Technical Area Committees

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning technical area committees?

Grounding context: The Systems Science and Engineering, Human Machine Systems, and Cybernetics committees provide leadership for technical activities such as conference special sessions, special publication issues, bibliographies, standards, technical meetings, workshops, and specialty committees.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 029: Publications Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning publications committee?

Grounding context: The Vice President for Publications chairs the Publications Committee, which formulates, guides and evaluates SMCS publication policy and programs and supports the Transactions, Magazine, eNewsletter, website and related publication planning.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 030: Conferences and Meetings Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning conferences and meetings committee?

Grounding context: The Vice President for Conferences and Meetings chairs the CMC. The committee formulates, guides and evaluates SMCS conference and meeting policies and programs and coordinates Society technical meeting activities.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 031: Membership and Student Activities Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning membership and student activities committee?

Grounding context: The Vice President for Membership and Student Activities chairs the MSAC, which coordinates membership and student activities, promotes chapters, maintains links between chapters and the BoG, supports speakers, and encourages student participation.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 032: Finance Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning finance committee?

Grounding context: The Vice President for Finance chairs the Finance Committee and has overall responsibility for Society financial health, including budgets, financial monitoring, reports, investments and oversight of the Treasurer.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 033: Awards Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning awards committee?

Grounding context: The Senior Past President chairs the Awards Committee, which nominates candidates for IEEE Awards, nominates recipients for SMCS awards subject to BoG approval, and maintains awards activities and policies.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 034: Fellow Evaluation Committee

Source: SMCS Bylaws, Article III
Suggested query: What are the rules or requirements concerning fellow evaluation committee?

Grounding context: The Fellow Evaluation Committee is chaired by the Senior Past President when eligible, or another appointed Fellow under the stated procedure. It evaluates IEEE Fellow candidates assigned to SMCS in accordance with IEEE evaluation procedures.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 035: Ad Hoc Committees

Source: SMCS Bylaws, Article IV
Suggested query: What are the rules or requirements concerning ad hoc committees?

Grounding context: The SMCS President may appoint ad hoc committees. New committees and ad hoc projects may also be sponsored by at least three SMCS members who provide the proposed Field of Interest, organizers and initial members, and a first-year activity outline.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 036: Technical Area VP Responsibilities

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning technical area vp responsibilities?

Grounding context: The Technical Area Vice Presidents are responsible for improving technical quality in their areas, chairing the corresponding area committees, encouraging and managing Technical Committees, collecting semi-annual reports, and handling recommendations or decisions on TC chairs, mergers, creation and dissolution.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 037: Area AVP Responsibilities

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning area avp responsibilities?

Grounding context: An Area Associate Vice President supports the corresponding Area VP, supports TCs, collects requests and opinions, analyses technical trends, assists planning for new, combined or discontinued TCs, promotes TC activities, and helps enforce policies and procedures.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 038: Technical Committee Activity

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning technical committee activity?

Grounding context: Technical Committees collectively define the scope of SMCS technical activities. Each TC must propose at least one special session at the annual SMC conference and should contribute through conferences, workshops, special issues, tutorial papers, newsletters and industry collaboration.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 039: TC Chair Requirements

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning tc chair requirements?

Grounding context: All TC Chairs and Co-Chairs must be SMCS members. They must contribute to SMCS-sponsored conferences or workshops, recruit new members through TC activities, and report TC activities bi-annually to the corresponding Area VP.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 040: TC Performance Evaluation

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning tc performance evaluation?

Grounding context: Yearly TC performance evaluation considers bi-annual reports and composition statistics, activities and publications, conference and event support, member acquisition, an up-to-date webpage, and future plans.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 041: Creating a New TC

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning creating a new tc?

Grounding context: A request for a new TC is submitted to the corresponding Area VP with the TC name, Chair and member names, objectives and activity plan. The Area Committee checks the plan and overlap with existing TCs. After Area VP approval, activity may begin and the decision is reported and announced.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 042: Dissolving a TC

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning dissolving a tc?

Grounding context: A TC may be discontinued if inactive for at least one year with no credible revival plan, based largely on bi-annual reports. Alternatively, its Chair with support of at least two TC members may request discontinuation. The final decision rests with the corresponding Area Committee.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 043: Major TC Changes

Source: SMCS Technical Committee Manual
Suggested query: What are the rules or requirements concerning major tc changes?

Grounding context: Major TC changes include changing TC Chairs or significantly changing technical content. The TC Chair proposes the change to the Area VP; after approval, the change is reported to the BoG, TCs are informed, and the change is announced.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 044: SMCS Annual Dues

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning smcs annual dues?

Grounding context: Annual Society dues for Members are set each year during the budget cycle. A change in dues requires approval by two-thirds of all voting members of the Board of Governors. Affiliate dues equal Society Member dues plus the IEEE-set Affiliate surcharge.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 045: Member Discipline

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning member discipline?

Grounding context: Society members are subject to IEEE and Society rules for material violations of governing documents, policies, the operational manual or the IEEE Code of Ethics, or conduct seriously prejudicial to IEEE. Discipline may include expulsion, suspension or censure by IEEE.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 046: Distinguished Lecturer Program

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning distinguished lecturer program?

Grounding context: The Distinguished Lecturer Program is administered under the Vice President for Membership and Student Activities. Candidates submit specified biographical and lecture information, are evaluated by the committee, and normally receive two-year appointments with a possible two-year extension.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 047: Flagship Conference Rotation

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning flagship conference rotation?

Grounding context: SMCS flagship conferences follow a rotating global schedule: Americas, then Asia/Oceania, then Europe/Africa, repeating on a three-year cycle. Hosting bids and proposals operate on a 24-36 month cycle.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 048: Financially Sponsored Conferences

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning financially sponsored conferences?

Grounding context: For financially sponsored or co-sponsored conferences, SMCS assumes full or shared financial responsibility. Revenue and expense sharing is defined in a Memorandum of Understanding, and conferences must comply with IEEE financial reporting and conference standards.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 049: Technically Co-Sponsored Conferences

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning technically co-sponsored conferences?

Grounding context: Technical co-sponsorship means direct and substantial SMCS involvement in the technical program without financial responsibility. SMCS may promote the event and encourage submissions and attendance.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 050: Conference Proposal Review

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning conference proposal review?

Grounding context: For flagship conferences, at least two bids should be obtained through a competitive process. The Conferences and Meetings Committee reviews proposals, the two strongest are recommended to the BoG, and the strongest proposal is approved following evaluation.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 051: Conference Budget Planning

Source: Draft SMCS Operational Manual V5
Suggested query: What are the rules or requirements concerning conference budget planning?

Grounding context: A detailed conference budget should be developed early, covering venue, catering, marketing, travel, speakers and miscellaneous costs. The draft manual states a target surplus of 20 percent over projected expenses and calls for a contingency fund and approval by SMCS and IEEE.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 052: IEEE Governance Hierarchy

Source: IEEE Constitution and Bylaws, I-300
Suggested query: What are the rules or requirements concerning ieee governance hierarchy?

Grounding context: IEEE governance documents have a hierarchy. The Constitution contains fundamental objectives and organization; Bylaws implement constitutional provisions; Policies contain more detailed policies, objectives and procedures; organizational-unit manuals, policy statements and bylaws must conform to higher-level IEEE governing documents.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 053: IEEE Organizational Units

Source: IEEE Constitution and Bylaws, I-107
Suggested query: What are the rules or requirements concerning ieee organizational units?

Grounding context: An IEEE organizational unit is a subset of IEEE membership formed for educational, geographic, professional, technical or other appropriate activities. Each organizational unit is an integral part of IEEE rather than a separate organization.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 054: IEEE Life Member

Source: IEEE Constitution and Bylaws, I-102
Suggested query: What are the rules or requirements concerning ieee life member?

Grounding context: Life Member designation applies when a member has reached age 65 and the sum of age and years of IEEE membership equals or exceeds 100. The designation becomes effective on 1 January of the following year.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 055: IEEE Senior Member

Source: IEEE Constitution and Bylaws, I-104
Suggested query: What are the rules or requirements concerning ieee senior member?

Grounding context: Senior Member is the highest grade for which application may be made. A candidate requires professional maturity, at least ten years of professional practice, and significant performance over at least five of those years under the stated criteria.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 056: IEEE Member Obligations

Source: IEEE Constitution and Bylaws, I-104
Suggested query: What are the rules or requirements concerning ieee member obligations?

Grounding context: IEEE membership carries obligations to abide by the IEEE Constitution, Code of Ethics, Bylaws and Policies, support IEEE principles and activities, and meet applicable monetary obligations.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Context Record 057: IEEE Finance Committee

Source: IEEE Constitution and Bylaws, I-305
Suggested query: What are the rules or requirements concerning ieee finance committee?

Grounding context: The IEEE Finance Committee reports to the Board of Directors and is responsible for financial strategy, financial issues, development of capital and operating budgets, and statements of allocated and unallocated reserves.

This context is suitable for testing whether a retriever can locate the relevant governance evidence before answer generation. The expected system behaviour is to ground the response in the source and avoid adding unsupported requirements.

Cross-Document and Policy-Auditor Records

The following records deliberately repeat the same source-grounded knowledge in different retrieval-friendly forms. This increases corpus size for engineering tests but does not add new authoritative policy.

Audit Record 001: SMCS Identity and Objectives

Primary source: SMCS Constitution, Article I
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The organization is the IEEE Systems, Man, and Cybernetics Society (SMCS), part of IEEE. Its objectives are scientific, literary, and educational. It promotes professional standing, cooperation, technical-information exchange, meetings, technical-paper discussion, journals, and committee activity within its Field of Interest.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 002: SMCS Field of Interest

Primary source: SMCS Constitution, Article II
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The SMCS Field of Interest includes integration of communication, control, cybernetics, stochastics, optimization, and system-structure theories; systems-engineering methods such as modelling, simulation, experimentation, human factors, design, testing and evaluation; and hardware/software applications to biological, ecological, socio-economic, social-service, computer-information and operational man-machine systems.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 003: SMCS Membership

Primary source: SMCS Constitution, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

IEEE members of any grade, including students, may join SMCS if interested in its Field of Interest and after application and payment of Society fees. Qualified non-IEEE participants may become Society Affiliates under the criteria in the Society Bylaws and applicable fees.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 004: SMCS Finances

Primary source: SMCS Constitution, Article IV
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS may collect annual assessments or fees in accordance with IEEE rules. It may charge registration fees for its meetings and may raise revenue through permitted means. Money held by or for SMCS legally belongs to IEEE and may be spent to promote SMCS objectives but not contrary to IEEE interests.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 005: Board of Governors Composition

Primary source: SMCS Constitution, Article V
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS is governed by a Board of Governors (BoG). All BoG members must be SMCS members. There are at most 27 voting members: two immediate Past Presidents, ten Administrative Officers, and fifteen Members-at-Large. Editors-in-Chief of fully sponsored SMCS Transactions serve without vote.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 006: Member-at-Large Term

Primary source: SMCS Constitution, Article V
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

A Member-at-Large of the BoG serves a three-year term, and at least five Members-at-Large are elected annually.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 007: SMCS Officers

Primary source: SMCS Constitution, Article V
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS officers include the President, President-Elect, Vice President for Organization and Planning, Vice President for Finance, three Technical Area Vice Presidents, Vice President for Publications, Vice President for Conferences and Meetings, and Vice President for Membership and Student Activities.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 008: Executive Committee

Primary source: SMCS Constitution, Article VI
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Executive Committee consists of the President, President-Elect, Vice Presidents, Secretary, and two immediate Past Presidents. The President chairs the ExCom. The Secretary and Treasurer are non-voting members of the ExCom.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 009: Secretary Responsibilities

Primary source: SMCS Constitution, Article VI
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Secretary sends notices, prepares agendas, records BoG minutes, reports ExCom actions, keeps Society records, and makes required reports to the BoG, IEEE TAB, and under IEEE Bylaws.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 010: Treasurer Responsibilities

Primary source: SMCS Constitution, Article VI
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Treasurer reports through the Vice President for Finance and is responsible for sound financial practices, assisting with the Society budget, working with IEEE on financial matters, and processing expense reports.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 011: Annual and Five-Year Planning

Primary source: SMCS Constitution, Article VI
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when

available.

Each Vice President obtains subcommittee objectives in January and adds their own objectives. The Vice President for Organization and Planning prepares the Annual Plan and updates the Five-Year Plan annually for BoG approval.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 012: BoG Quorum

Primary source: SMCS Constitution, Article VII
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

A majority of voting BoG members constitutes a quorum. Proxy is not counted when determining quorum.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 013: BoG Voting

Primary source: SMCS Constitution, Article VII
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

When a quorum is present, a majority vote of voting members present is the act of the BoG unless otherwise provided. A person holding more than one position is limited to one vote. Proxy voting is not allowed.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 014: SMCS Meetings and Conferences

Primary source: SMCS Constitution, Article VIII
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS may hold meetings, conferences, symposia or conventions alone or with other IEEE units or technical organizations, subject to IEEE rules. SMCS shall sponsor or cosponsor at least one major technical conference each year.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 015: SMCS Publications

Primary source: SMCS Constitution, Article IX
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS periodically publishes its Transactions, Magazine, and eNewsletter as established by the BoG. Publication policies are governed by the Bylaws.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 016: Chapters and Committees

Primary source: SMCS Constitution, Article X
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Chapters may be formed under IEEE rules for purposes consistent with SMCS objectives. Committees are established by the BoG in special-interest areas within the SMCS Field of Interest.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 017: Constitution Amendment Initiation

Primary source: SMCS Constitution, Article XI
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

An amendment to the SMCS Constitution may be initiated by a petition signed by five percent of SMCS members or by a two-thirds vote of the entire voting membership of the BoG.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 018: Bylaw Amendment

Primary source: SMCS Constitution, Article XI
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS Bylaws may be adopted or changed by a two-thirds BoG vote if proposed changes are sent to each BoG member at least two weeks before action. They require IEEE approval and publication before becoming effective.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 019: Nominations Committee

Primary source: SMCS Bylaws, Article I
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Nominations Committee is chaired by the immediate Past President, subject to stated replacement arrangements. It includes the Chair and three Society members who, at selection, must have served on the BoG for at least one year.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 020: Candidate Eligibility

Primary source: SMCS Bylaws, Article I
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Vice President candidates must have been voting BoG members elected by the membership-at-large during the past five calendar years and served at least one full year by nomination. President and President-Elect candidates must have served at least one year as a Vice President.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 021: Petition Nomination

Primary source: SMCS Bylaws, Article I
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Additional Member-at-Large nominations require a written petition signed by at least two percent of SMCS members and filed with the Secretary at least 28 days before the election.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 022: Officer Terms

Primary source: SMCS Bylaws, Article I
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The President and Vice Presidents serve two-calendar-year terms; the President-Elect serves one calendar year. Continuous service as President is limited to two years and continuous service as a Vice President in one office is limited to four years, subject to the stated partial-term rule.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 023: BoG Annual Meeting

Primary source: SMCS Bylaws, Article II
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The BoG meets at least once each year, usually around the Society Annual Meeting. The ExCom also meets at least once each year, usually about six months before the BoG meeting.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 024: BoG Meeting Notice

Primary source: SMCS Bylaws, Article II
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

No BoG meeting may transact business unless each member has been notified of the time and place at least 20 days before the scheduled meeting.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 025: Telecommunication Meetings

Primary source: SMCS Bylaws, Article II
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The BoG or a committee may meet and vote using telecommunications that allow all participants to hear each other at the same time; normal voting requirements apply.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 026: Action Without Meeting

Primary source: SMCS Bylaws, Article II
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The BoG or a committee may take action without a meeting, such as by email vote. An affirmative vote of a majority of all voting members is required and the result must be confirmed and filed with the minutes.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 027: Organization and Planning Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Vice President for Organization and Planning chairs the OPC. Responsibilities include annual Five-Year Plan updates, strategic and tactical planning, interpreting the Constitution and Bylaws when questions arise, and preparing modifications for BoG consideration.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 028: Technical Area Committees

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Systems Science and Engineering, Human Machine Systems, and Cybernetics committees provide leadership for technical activities such as conference special sessions, special publication issues, bibliographies, standards, technical meetings, workshops, and specialty committees.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 029: Publications Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Vice President for Publications chairs the Publications Committee, which formulates, guides and evaluates SMCS publication policy and programs and supports the Transactions, Magazine, eNewsletter, website and related publication planning.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 030: Conferences and Meetings Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Vice President for Conferences and Meetings chairs the CMC. The committee formulates, guides and evaluates SMCS conference and meeting policies and programs and coordinates Society technical meeting activities.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 031: Membership and Student Activities Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Vice President for Membership and Student Activities chairs the MSAC, which coordinates membership and student activities, promotes chapters, maintains links between chapters and the BoG, supports speakers, and encourages student participation.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 032: Finance Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Vice President for Finance chairs the Finance Committee and has overall responsibility for Society financial health, including budgets, financial monitoring, reports, investments and oversight of the Treasurer.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 033: Awards Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Senior Past President chairs the Awards Committee, which nominates candidates for IEEE Awards, nominates recipients for SMCS awards subject to BoG approval, and maintains awards activities and policies.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 034: Fellow Evaluation Committee

Primary source: SMCS Bylaws, Article III
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Fellow Evaluation Committee is chaired by the Senior Past President when eligible, or another appointed Fellow under the stated procedure. It evaluates IEEE Fellow candidates assigned to SMCS in accordance with IEEE evaluation procedures.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 035: Ad Hoc Committees

Primary source: SMCS Bylaws, Article IV
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The SMCS President may appoint ad hoc committees. New committees and ad hoc projects may also be sponsored by at least three SMCS members who provide the proposed Field of Interest, organizers and initial members, and a first-year activity outline.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 036: Technical Area VP Responsibilities

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Technical Area Vice Presidents are responsible for improving technical quality in their areas, chairing the corresponding area committees, encouraging and managing Technical Committees, collecting semi-annual reports, and handling recommendations or decisions on TC chairs, mergers, creation and dissolution.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 037: Area AVP Responsibilities

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

An Area Associate Vice President supports the corresponding Area VP, supports TCs, collects requests and opinions, analyses technical trends, assists planning for new, combined or discontinued TCs, promotes TC activities, and helps enforce policies and procedures.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 038: Technical Committee Activity

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Technical Committees collectively define the scope of SMCS technical activities. Each TC must propose at least one special session at the annual SMC conference and should contribute through conferences, workshops, special issues, tutorial papers, newsletters and industry collaboration.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 039: TC Chair Requirements

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

All TC Chairs and Co-Chairs must be SMCS members. They must contribute to SMCS-sponsored conferences or workshops, recruit new members through TC activities, and report TC activities bi-annually to the corresponding Area VP.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 040: TC Performance Evaluation

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Yearly TC performance evaluation considers bi-annual reports and composition statistics, activities and publications, conference and event support, member acquisition, an up-to-date webpage, and future plans.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 041: Creating a New TC

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

A request for a new TC is submitted to the corresponding Area VP with the TC name, Chair and member names, objectives and activity plan. The Area Committee checks the plan and overlap with existing TCs. After Area VP approval, activity may begin and the decision is reported and announced.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 042: Dissolving a TC

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

A TC may be discontinued if inactive for at least one year with no credible revival plan, based largely on bi-annual reports. Alternatively, its Chair with support of at least two TC members may request discontinuation. The final decision rests with the corresponding Area Committee.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 043: Major TC Changes

Primary source: SMCS Technical Committee Manual
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Major TC changes include changing TC Chairs or significantly changing technical content. The TC Chair proposes the change to the Area VP; after approval, the change is reported to the BoG, TCs are informed, and the change is announced.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 044: SMCS Annual Dues

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Annual Society dues for Members are set each year during the budget cycle. A change in dues requires approval by two-thirds of all voting members of the Board of Governors. Affiliate dues equal Society Member dues plus the IEEE-set Affiliate surcharge.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 045: Member Discipline

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Society members are subject to IEEE and Society rules for material violations of governing documents, policies, the operational manual or the IEEE Code of Ethics, or conduct seriously prejudicial to IEEE. Discipline may include expulsion, suspension or censure by IEEE.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 046: Distinguished Lecturer Program

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The Distinguished Lecturer Program is administered under the Vice President for Membership and Student Activities. Candidates submit specified biographical and lecture information, are evaluated by the committee, and normally receive two-year appointments with a possible two-year extension.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 047: Flagship Conference Rotation

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

SMCS flagship conferences follow a rotating global schedule: Americas, then Asia/Oceania, then Europe/Africa, repeating on a three-year cycle. Hosting bids and proposals operate on a 24-36 month cycle.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 048: Financially Sponsored Conferences

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

For financially sponsored or co-sponsored conferences, SMCS assumes full or shared financial responsibility. Revenue and expense sharing is defined in a Memorandum of Understanding, and conferences must comply with IEEE financial reporting and conference standards.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 049: Technically Co-Sponsored Conferences

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when

available.

Technical co-sponsorship means direct and substantial SMCS involvement in the technical program without financial responsibility. SMCS may promote the event and encourage submissions and attendance.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 050: Conference Proposal Review

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

For flagship conferences, at least two bids should be obtained through a competitive process. The Conferences and Meetings Committee reviews proposals, the two strongest are recommended to the BoG, and the strongest proposal is approved following evaluation.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 051: Conference Budget Planning

Primary source: Draft SMCS Operational Manual V5
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

A detailed conference budget should be developed early, covering venue, catering, marketing, travel, speakers and miscellaneous costs. The draft manual states a target surplus of 20 percent over projected expenses and calls for a contingency fund and approval by SMCS and IEEE.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 052: IEEE Governance Hierarchy

Primary source: IEEE Constitution and Bylaws, I-300
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

IEEE governance documents have a hierarchy. The Constitution contains fundamental objectives and organization; Bylaws implement constitutional provisions; Policies contain more detailed policies, objectives and procedures; organizational-unit manuals, policy statements and bylaws must conform to higher-level IEEE governing documents.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 053: IEEE Organizational Units

Primary source: IEEE Constitution and Bylaws, I-107
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

An IEEE organizational unit is a subset of IEEE membership formed for educational, geographic, professional, technical or other appropriate activities. Each organizational unit is an integral part of IEEE rather than a separate organization.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 054: IEEE Life Member

Primary source: IEEE Constitution and Bylaws, I-102
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Life Member designation applies when a member has reached age 65 and the sum of age and years of IEEE membership equals or exceeds 100. The designation becomes effective on 1 January of the following year.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 055: IEEE Senior Member

Primary source: IEEE Constitution and Bylaws, I-104
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

Senior Member is the highest grade for which application may be made. A candidate requires professional maturity, at least ten years of professional practice, and significant performance over at least five of those years under the stated criteria.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 056: IEEE Member Obligations

Primary source: IEEE Constitution and Bylaws, I-104
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

IEEE membership carries obligations to abide by the IEEE Constitution, Code of Ethics, Bylaws and Policies, support IEEE principles and activities, and meet applicable monetary obligations.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Audit Record 057: IEEE Finance Committee

Primary source: IEEE Constitution and Bylaws, I-305
Audit task: retrieve this rule, identify its governing level, and compare it only with retrieved higher/lower-level material when available.

The IEEE Finance Committee reports to the Board of Directors and is responsible for financial strategy, financial issues, development of capital and operating budgets, and statements of allocated and unallocated reserves.

Policy-auditor test note: a RAG system should distinguish a rule stated in an IEEE-level governing document from a rule stated in an SMCS Constitution/Bylaw, Technical Manual, or draft Operational Manual. If the corpus does not contain evidence of a conflict, the model should not invent one.

Golden-Set Style Retrieval Questions

Q001. What does the governance corpus state about smcs identity and objectives?

Expected source: SMCS Constitution, Article I

Reference answer: The organization is the IEEE Systems, Man, and Cybernetics Society (SMCS), part of IEEE. Its objectives are scientific, literary, and educational. It promotes professional standing, cooperation, technical-information exchange, meetings, technical-paper discussion, journals, and committee activity within its Field of Interest.

Q002. What does the governance corpus state about smcs field of interest?

Expected source: SMCS Constitution, Article II

Reference answer: The SMCS Field of Interest includes integration of communication, control, cybernetics, stochastics, optimization, and system-structure theories; systems-engineering methods such as modelling, simulation, experimentation, human factors, design, testing and evaluation; and hardware/software applications to biological, ecological, socio-economic, social-service, computer-information and operational man-machine systems.

Q003. What does the governance corpus state about smcs membership?

Expected source: SMCS Constitution, Article III

Reference answer: IEEE members of any grade, including students, may join SMCS if interested in its Field of Interest and after application and payment of Society fees. Qualified non-IEEE participants may become Society Affiliates under the criteria in the Society Bylaws and applicable fees.

Q004. What does the governance corpus state about smcs finances?

Expected source: SMCS Constitution, Article IV

Reference answer: SMCS may collect annual assessments or fees in accordance with IEEE rules. It may charge registration fees for its meetings and may raise revenue through permitted means. Money held by or for SMCS legally belongs to IEEE and may be spent to promote SMCS objectives but not contrary to IEEE interests.

Q005. What does the governance corpus state about board of governors composition?

Expected source: SMCS Constitution, Article V

Reference answer: SMCS is governed by a Board of Governors (BoG). All BoG members must be SMCS members. There are at most 27 voting members: two immediate Past Presidents, ten Administrative Officers, and fifteen Members-at-Large. Editors-in-Chief of fully sponsored SMCS Transactions serve without vote.

Q006. What does the governance corpus state about member-at-large term?

Expected source: SMCS Constitution, Article V

Reference answer: A Member-at-Large of the BoG serves a three-year term, and at least five Members-at-Large are elected annually.

Q007. What does the governance corpus state about smcs officers?

Expected source: SMCS Constitution, Article V

Reference answer: SMCS officers include the President, President-Elect, Vice President for Organization and Planning, Vice President for Finance, three Technical Area Vice Presidents, Vice President for Publications, Vice President for Conferences and Meetings, and Vice President for Membership and Student Activities.

Q008. What does the governance corpus state about executive committee?

Expected source: SMCS Constitution, Article VI

Reference answer: The Executive Committee consists of the President, President-Elect, Vice Presidents, Secretary, and two immediate Past Presidents. The President chairs the ExCom. The Secretary and Treasurer are non-voting members of the ExCom.

Q009. What does the governance corpus state about secretary responsibilities?

Expected source: SMCS Constitution, Article VI

Reference answer: The Secretary sends notices, prepares agendas, records BoG minutes, reports ExCom actions, keeps Society records, and makes required reports to the BoG, IEEE TAB, and under IEEE Bylaws.

Q010. What does the governance corpus state about treasurer responsibilities?

Expected source: SMCS Constitution, Article VI

Reference answer: The Treasurer reports through the Vice President for Finance and is responsible for sound financial practices, assisting with the Society budget, working with IEEE on financial matters, and processing expense reports.

Q011. What does the governance corpus state about annual and five-year planning?

Expected source: SMCS Constitution, Article VI

Reference answer: Each Vice President obtains subcommittee objectives in January and adds their own objectives. The Vice President for Organization and Planning prepares the Annual Plan and updates the Five-Year Plan annually for BoG approval.

Q012. What does the governance corpus state about bog quorum?

Expected source: SMCS Constitution, Article VII

Reference answer: A majority of voting BoG members constitutes a quorum. Proxy is not counted when determining quorum.

Q013. What does the governance corpus state about bog voting?

Expected source: SMCS Constitution, Article VII

Reference answer: When a quorum is present, a majority vote of voting members present is the act of the BoG unless otherwise provided. A person holding more than one position is limited to one vote. Proxy voting is not allowed.

Q014. What does the governance corpus state about smcs meetings and conferences?

Expected source: SMCS Constitution, Article VIII

Reference answer: SMCS may hold meetings, conferences, symposia or conventions alone or with other IEEE units or technical organizations, subject to IEEE rules. SMCS shall sponsor or cosponsor at least one major technical conference each year.

Q015. What does the governance corpus state about smcs publications?

Expected source: SMCS Constitution, Article IX

Reference answer: SMCS periodically publishes its Transactions, Magazine, and eNewsletter as established by the BoG. Publication policies are governed by the Bylaws.

Q016. What does the governance corpus state about chapters and committees?

Expected source: SMCS Constitution, Article X

Reference answer: Chapters may be formed under IEEE rules for purposes consistent with SMCS objectives. Committees are established by the BoG in special-interest areas within the SMCS Field of Interest.

Q017. What does the governance corpus state about constitution amendment initiation?

Expected source: SMCS Constitution, Article XI

Reference answer: An amendment to the SMCS Constitution may be initiated by a petition signed by five percent of SMCS members or by a two-thirds vote of the entire voting membership of the BoG.

Q018. What does the governance corpus state about bylaw amendment?

Expected source: SMCS Constitution, Article XI

Reference answer: SMCS Bylaws may be adopted or changed by a two-thirds BoG vote if proposed changes are sent to each BoG member at least two weeks before action. They require IEEE approval and publication before becoming effective.

Q019. What does the governance corpus state about nominations committee?

Expected source: SMCS Bylaws, Article I

Reference answer: The Nominations Committee is chaired by the immediate Past President, subject to stated replacement arrangements. It includes the Chair and three Society members who, at selection, must have served on the BoG for at least one year.

Q020. What does the governance corpus state about candidate eligibility?

Expected source: SMCS Bylaws, Article I

Reference answer: Vice President candidates must have been voting BoG members elected by the membership-at-large during the past five calendar years and served at least one full year by nomination. President and President-Elect candidates must have served at least one year as a Vice President.

Q021. What does the governance corpus state about petition nomination?

Expected source: SMCS Bylaws, Article I

Reference answer: Additional Member-at-Large nominations require a written petition signed by at least two percent of SMCS members and filed with the Secretary at least 28 days before the election.

Q022. What does the governance corpus state about officer terms?

Expected source: SMCS Bylaws, Article I

Reference answer: The President and Vice Presidents serve two-calendar-year terms; the President-Elect serves one calendar year. Continuous service as President is limited to two years and continuous service as a Vice President in one office is limited to four years, subject to the stated partial-term rule.

Q023. What does the governance corpus state about bog annual meeting?

Expected source: SMCS Bylaws, Article II

Reference answer: The BoG meets at least once each year, usually around the Society Annual Meeting. The ExCom also meets at least once each year, usually about six months before the BoG meeting.

Q024. What does the governance corpus state about bog meeting notice?

Expected source: SMCS Bylaws, Article II

Reference answer: No BoG meeting may transact business unless each member has been notified of the time and place at least 20 days before the scheduled meeting.

Q025. What does the governance corpus state about telecommunication meetings?

Expected source: SMCS Bylaws, Article II

Reference answer: The BoG or a committee may meet and vote using telecommunications that allow all participants to hear each other at the same time; normal voting requirements apply.

Q026. What does the governance corpus state about action without meeting?

Expected source: SMCS Bylaws, Article II

Reference answer: The BoG or a committee may take action without a meeting, such as by email vote. An affirmative vote of a majority of all voting members is required and the result must be confirmed and filed with the minutes.

Q027. What does the governance corpus state about organization and planning committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Vice President for Organization and Planning chairs the OPC. Responsibilities include annual Five-Year Plan updates, strategic and tactical planning, interpreting the Constitution and Bylaws when questions arise, and preparing modifications for BoG consideration.

Q028. What does the governance corpus state about technical area committees?

Expected source: SMCS Bylaws, Article III

Reference answer: The Systems Science and Engineering, Human Machine Systems, and Cybernetics committees provide leadership for technical activities such as conference special sessions, special publication issues, bibliographies, standards, technical meetings, workshops, and specialty committees.

Q029. What does the governance corpus state about publications committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Vice President for Publications chairs the Publications Committee, which formulates, guides and evaluates SMCS publication policy and programs and supports the Transactions, Magazine, eNewsletter, website and related publication planning.

Q030. What does the governance corpus state about conferences and meetings committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Vice President for Conferences and Meetings chairs the CMC. The committee formulates, guides and evaluates SMCS conference and meeting policies and programs and coordinates Society technical meeting activities.

Q031. What does the governance corpus state about membership and student activities committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Vice President for Membership and Student Activities chairs the MSAC, which coordinates membership and student activities, promotes chapters, maintains links between chapters and the BoG, supports speakers, and encourages student participation.

Q032. What does the governance corpus state about finance committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Vice President for Finance chairs the Finance Committee and has overall responsibility for Society financial health, including budgets, financial monitoring, reports, investments and oversight of the Treasurer.

Q033. What does the governance corpus state about awards committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Senior Past President chairs the Awards Committee, which nominates candidates for IEEE Awards, nominates recipients for SMCS awards subject to BoG approval, and maintains awards activities and policies.

Q034. What does the governance corpus state about fellow evaluation committee?

Expected source: SMCS Bylaws, Article III

Reference answer: The Fellow Evaluation Committee is chaired by the Senior Past President when eligible, or another appointed Fellow under the stated procedure. It evaluates IEEE Fellow candidates assigned to SMCS in accordance with IEEE evaluation procedures.

Q035. What does the governance corpus state about ad hoc committees?

Expected source: SMCS Bylaws, Article IV

Reference answer: The SMCS President may appoint ad hoc committees. New committees and ad hoc projects may also be sponsored by at least three SMCS members who provide the proposed Field of Interest, organizers and initial members, and a first-year activity outline.

Q036. What does the governance corpus state about technical area vp responsibilities?

Expected source: SMCS Technical Committee Manual

Reference answer: The Technical Area Vice Presidents are responsible for improving technical quality in their areas, chairing the corresponding area committees, encouraging and managing Technical Committees, collecting semi-annual reports, and handling recommendations or decisions on TC chairs, mergers, creation and dissolution.

Q037. What does the governance corpus state about area avp responsibilities?

Expected source: SMCS Technical Committee Manual

Reference answer: An Area Associate Vice President supports the corresponding Area VP, supports TCs, collects requests and opinions, analyses technical trends, assists planning for new, combined or discontinued TCs, promotes TC activities, and helps enforce policies and procedures.

Q038. What does the governance corpus state about technical committee activity?

Expected source: SMCS Technical Committee Manual

Reference answer: Technical Committees collectively define the scope of SMCS technical activities. Each TC must propose at least one special session at the annual SMC conference and should contribute through conferences, workshops, special issues, tutorial papers, newsletters and industry collaboration.

Q039. What does the governance corpus state about tc chair requirements?

Expected source: SMCS Technical Committee Manual

Reference answer: All TC Chairs and Co-Chairs must be SMCS members. They must contribute to SMCS-sponsored conferences or workshops, recruit new members through TC activities, and report TC activities bi-annually to the corresponding Area VP.

Q040. What does the governance corpus state about tc performance evaluation?

Expected source: SMCS Technical Committee Manual

Reference answer: Yearly TC performance evaluation considers bi-annual reports and composition statistics, activities and publications, conference and event support, member acquisition, an up-to-date webpage, and future plans.

Q041. What does the governance corpus state about creating a new tc?

Expected source: SMCS Technical Committee Manual

Reference answer: A request for a new TC is submitted to the corresponding Area VP with the TC name, Chair and member names, objectives and activity plan. The Area Committee checks the plan and overlap with existing TCs. After Area VP approval, activity may begin and the decision is reported and announced.

Q042. What does the governance corpus state about dissolving a tc?

Expected source: SMCS Technical Committee Manual

Reference answer: A TC may be discontinued if inactive for at least one year with no credible revival plan, based largely on bi-annual reports. Alternatively, its Chair with support of at least two TC members may request discontinuation. The final decision rests with the corresponding Area Committee.

Q043. What does the governance corpus state about major tc changes?

Expected source: SMCS Technical Committee Manual

Reference answer: Major TC changes include changing TC Chairs or significantly changing technical content. The TC Chair proposes the change to the Area VP; after approval, the change is reported to the BoG, TCs are informed, and the change is announced.

Q044. What does the governance corpus state about smcs annual dues?

Expected source: Draft SMCS Operational Manual V5

Reference answer: Annual Society dues for Members are set each year during the budget cycle. A change in dues requires approval by two-thirds of all voting members of the Board of Governors. Affiliate dues equal Society Member dues plus the IEEE-set Affiliate surcharge.

Q045. What does the governance corpus state about member discipline?

Expected source: Draft SMCS Operational Manual V5

Reference answer: Society members are subject to IEEE and Society rules for material violations of governing documents, policies, the operational manual or the IEEE Code of Ethics, or conduct seriously prejudicial to IEEE.

Discipline may include expulsion, suspension or censure by IEEE.

Q046. What does the governance corpus state about distinguished lecturer program?

Expected source: Draft SMCS Operational Manual V5

Reference answer: The Distinguished Lecturer Program is administered under the Vice President for Membership and Student Activities. Candidates submit specified biographical and lecture information, are evaluated by the committee, and normally receive two-year appointments with a possible two-year extension.

Q047. What does the governance corpus state about flagship conference rotation?

Expected source: Draft SMCS Operational Manual V5

Reference answer: SMCS flagship conferences follow a rotating global schedule: Americas, then Asia/Oceania, then Europe/Africa, repeating on a three-year cycle. Hosting bids and proposals operate on a 24-36 month cycle.

Q048. What does the governance corpus state about financially sponsored conferences?

Expected source: Draft SMCS Operational Manual V5

Reference answer: For financially sponsored or co-sponsored conferences, SMCS assumes full or shared financial responsibility. Revenue and expense sharing is defined in a Memorandum of Understanding, and conferences must comply with IEEE financial reporting and conference standards.

Q049. What does the governance corpus state about technically co-sponsored conferences?

Expected source: Draft SMCS Operational Manual V5

Reference answer: Technical co-sponsorship means direct and substantial SMCS involvement in the technical program without financial responsibility. SMCS may promote the event and encourage submissions and attendance.

Q050. What does the governance corpus state about conference proposal review?

Expected source: Draft SMCS Operational Manual V5

Reference answer: For flagship conferences, at least two bids should be obtained through a competitive process. The Conferences and Meetings Committee reviews proposals, the two strongest are recommended to the BoG, and the strongest proposal is approved following evaluation.

Q051. What does the governance corpus state about conference budget planning?

Expected source: Draft SMCS Operational Manual V5

Reference answer: A detailed conference budget should be developed early, covering venue, catering, marketing, travel, speakers and miscellaneous costs. The draft manual states a target surplus of 20 percent over projected expenses and calls for a contingency fund and approval by SMCS and IEEE.

Q052. What does the governance corpus state about ieee governance hierarchy?

Expected source: IEEE Constitution and Bylaws, I-300

Reference answer: IEEE governance documents have a hierarchy. The Constitution contains fundamental objectives and organization; Bylaws implement constitutional provisions; Policies contain more detailed policies, objectives and procedures; organizational-unit manuals, policy statements and bylaws must conform to higher-level IEEE governing documents.

Q053. What does the governance corpus state about ieee organizational units?

Expected source: IEEE Constitution and Bylaws, I-107

Reference answer: An IEEE organizational unit is a subset of IEEE membership formed for educational, geographic, professional, technical or other appropriate activities. Each organizational unit is an integral part of IEEE rather than a separate organization.

Q054. What does the governance corpus state about ieee life member?

Expected source: IEEE Constitution and Bylaws, I-102

Reference answer: Life Member designation applies when a member has reached age 65 and the sum of age and years of IEEE membership equals or exceeds 100. The designation becomes effective on 1 January of the following year.

Q055. What does the governance corpus state about ieee senior member?

Expected source: IEEE Constitution and Bylaws, I-104

Reference answer: Senior Member is the highest grade for which application may be made. A candidate requires professional maturity, at least ten years of professional practice, and significant performance over at least five of those years under the stated criteria.

Q056. What does the governance corpus state about ieee member obligations?

Expected source: IEEE Constitution and Bylaws, I-104

Reference answer: IEEE membership carries obligations to abide by the IEEE Constitution, Code of Ethics, Bylaws and Policies, support IEEE principles and activities, and meet applicable monetary obligations.

Q057. What does the governance corpus state about ieee finance committee?

Expected source: IEEE Constitution and Bylaws, I-305

Reference answer: The IEEE Finance Committee reports to the Board of Directors and is responsible for financial strategy, financial issues, development of capital and operating budgets, and statements of allocated and unallocated reserves.
